

Rules for Unmanned Aerial Vehicles (drones, remote controlled aircraft) in Rebun

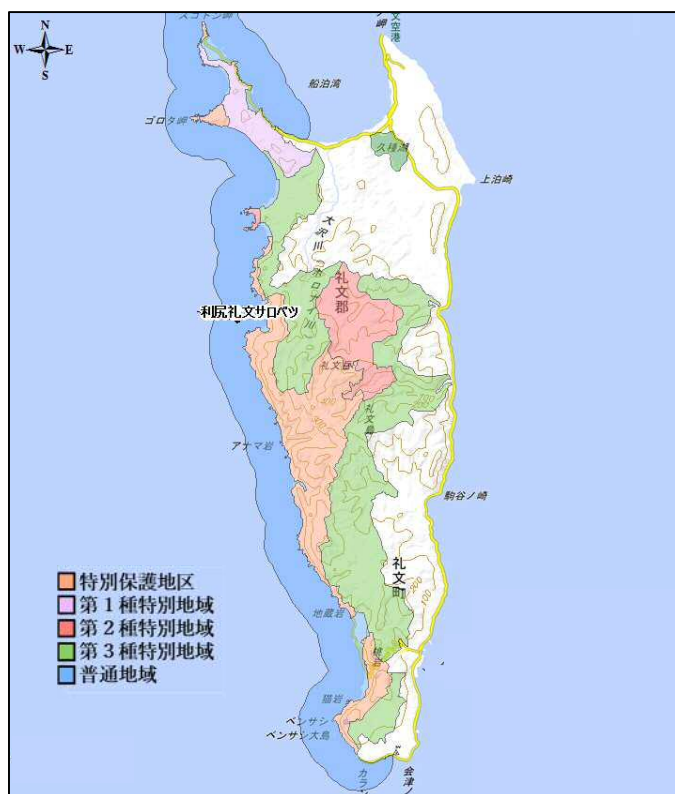

礼文島いきものつながりプロジェクト推進協議会

礼 文 町
環境省 稚内自然保護官事務所
林野庁 宗谷森林管理署
宗谷総合振興局
礼文町教育委員会

- Please don't fly in the vicinity of Rebun Airport, the Self-Defense Force Military Base (indicated on map) or over private residences.
- Flying is permitted up to an altitude of 150 meters above the local landscape.
- Please only fly the aircraft within the limits of your visual range.
- Please don't take off or land outside of a path.
- Please don't fly at night.
- Make sure you fly at least 30 meters from third parties. Don't fly when there are many uninvolved people in your range. It could be against the law to interfere with others' enjoyment of national parks.
- Please do not venture off trails or into dangerous places. If the drone crashes in such a place, please do not attempt to recover it yourself, rather contact the Government Office Industry Section. Due to potential destruction of vegetation, on principal please restrain yourself from entering into designated national park areas.
- If planning to fly over areas of Funadomari and Teppu covered by the Ministry of the Environment (indicated on map), please first file a flight plan with the Wakkanai branch office.
- If planning to fly over national forest (indicated on map), file for permission on the Hokkaido Regional Forest Office homepage (see link below) as well as with either the Soya or Rebun branches of the national forestry service. <北海道森林管理局 HP>
「国有林野内で無人航空機（ドローン、ラジコン機等）を飛行させる場合の手続」
